POLICIES – QUALITY & ENVIRONMENTAL				

1. QUALITY POLICY

The Company has been at the forefront of the Metal Finishing industry since 1938, specialising in the anodising of aluminium and its alloys. The business serves a variety of industries including Aerospace, Defense, Engineering, Construction, Home Improvement, Sport, Leisure and Cosmetics.

Colour Anodising is widely recognised as one of the UK's leading anodising companies.

The Company Quality Policy of Colour Anodising Ltd is that the quality of all processes provided by the Company will conform to the needs and expectations of all interested parties whilst fulfilling the requirements of any applicable International Standards, controlling specifications and statutory law.

The reputation of the Company rests on the high quality of its processes and all staff shall be made aware of the Quality Assurance requirements so that they will give their full support to ensure that the standard is maintained as effectively and economically as possible.

Through Management Review Meetings the Directors and Senior Managers of the Company seek continuous improvement by regularly and systematically reviewing the Quality Assurance System and Methods with the ultimate aim of producing zero defects. The Company also establishes and monitors measurable objectives for improvement at all levels and functions of the organisation. The company shall mitigate adverse risk and identify business opportunities.

The Quality Manager is responsible for the maintenance, revision, upkeep and flow down of the company quality system, and is directly responsible to the company Director's in this regard.

It is the responsibility of the company Directors and all senior managers to ensure that this Quality Policy is communicated to all employees and maintained at all levels within the Company.
